

# BURCO<sup>®</sup> APR-60

Nonionic Surfactant

## BENEFITS AND FEATURES

- Effective replacement for alkyl phenol ethoxylates in cleaning formulations
- Excellent detergency for oils and greases
- Excellent wetting for hard surfaces and fabrics
- Cold water soluble, no-gelling at any concentrations
- Alkyl phenol ethoxylate (APE) free
- Produced from readily biodegradable components
- Listed on the EPA's Cleangredients<sup>®</sup> database

## TYPICAL APPLICATIONS

- All purpose cleaners
- Water rinseable solvent cleaners
- Heavy duty industrial cleaners

## TYPICAL PROPERTIES

Appearance at 40°C	Clear liquid
pH (1% aqueous)	6.0
Activity, %	97
Cloud Point, 10% in 25% butoxydiglycol, °C	67
Viscosity, cP at 25°C	100
Density, lbs/gallon	8.0

## FORMULATION GUIDELINES

- Burco APR-60 is compatible with cationic, anionic, and nonionic surfactants.
- Replace water dispersible alkyl phenol ethoxylates (NP-6) with an equal amount of Burco APR-60. In some cases, lower levels of Burco APR-60 will give comparable performance.

## AVAILABILITY

Burco APR-60 is available in 53-gallon, open-head, poly drums (420 lbs), in totes, and in bulk.
