

BURCO® COPB-35

Cocoamidopropyl Betaine

Burco COPB-35 is a high foaming betaine surfactant that is stable in moderate levels of acid and alkali. The surfactant adds foaming and detergency to hand dishwash detergents, car wash detergents, and other cleaner/detergents. The product is compatible with anionic, nonionic, and cationic surfactants.

TYPICAL PROPERTIES

Appearance	Light, clear yellow liquid
pH (1%)	6.5
Solids, %	35 minimum
Activity, %	35
Viscosity, cps @ 25°C	25
Density, lbs/gallon	8.70

AVAILABILITY

Burco COPB-35 is available in 53-gallon, open-head, poly drums (450 lbs), in totes, and in bulk.
