

# BURCOXIDE™ LO

## Lauramine Oxide

### BENEFITS AND FEATURES

- Foam enhancement
- Foam stabilization
- Viscosity builder
- Chlorine stable
- Acid stable
- Can be formulated with cationic, anionic, and nonionic materials
- Alkyl phenol ethoxylate (APE) free
- Biodegradable
- Can be used in the formulation of “green” products compliant with Green Seal and EPA Design for the Environment (DfE) standards

### TYPICAL APPLICATIONS

- Hard surface cleaners and degreasers
- Car and truck washes
- Dishwashing detergents
- Toilet bowl cleaners
- Chlorine-containing mold and mildew removers
- Hand soaps
- Shampoos

## TYPICAL PROPERTIES

Appearance at 25°C	Clear liquid
pH (1% aqueous)	7 - 8
Specific Gravity	0.99
Activity, %	30
Viscosity, cP at 25°C	25
Density, lbs/gallon	8.05 – 8.1

## FORMULATION GUIDELINES

- Burcoxide LO is compatible with cationic, anionic, and nonionic surfactants.
- Burcoxide LO can be used in both acidic and basic environments.
- Burcoxide LO is chlorine stable.

## AVAILABILITY

Burcoxide LO is available in 55-gallon, open-head, poly drums (420 lbs).
